

## H Numbers and Numerals

**H5 How Many Fingers?** (Showing numbers with fingers)

*Skills practiced:* recognizing numerals, counting; finger coordination.

*Needed:* a set of ten cards or papers with the numerals 1-10 written on them. Also find out if any finger gestures have inappropriate meanings. Avoid these finger movements.

*Activity:*

Let everyone hold out their hands.

Talk about how most of us have two hands with five fingers on each hand.

Ask, can you lift one finger above the others? How about two?

Show one of the cards with a number on it.

Then ask the students to hold up the same number of fingers as the numeral on the card.

Repeat until the students know how to recognize the numbers and numerals.
